Job Description:

We are seeking kind and professional school psychologists in the beautiful blue ridge mountains. Asheville is a wonderful place to live for those that enjoy the outdoors and good food! In Buncombe County Schools, we promote an expanded roll as most psychologists are only assigned 2 schools. While our primary responsibility is assessment, we are involved in the MTSS process at our schools and we have the flexibility to expand our role further (counseling, consultation, crisis response, prevention, etc). We have excellent support from our EC administration. In addition, we have a strong group of school psychologists that meets monthly and we work as a team to support each other. We hope to find a psychologist that is a good fit for our team.

Application deadline: Applications will be accepted until position is filled
